Thanks Scott! Do you know when you might be able to finish removing the fabric? Thanks!

I will remove the green cover . This was the only place that we could install to keep everyone out.
I do not know they where going to install the cover or I would have told them not to. I will remove it they will be able to see through then .
And this is temporary in till I get all the underground done. The trench are deep.
Thank you Scott Campbell

If it's not possible to move the fence down lower, can you please simply remove the green fabric, so the neighbors can see through the chain link? Please let me know ASAP. Thank you.
